Training and culture

Currently, information security is a much debated topic, because it is developing very rapidly and touches everybody's life. You need to have access to resources, tutorials, guides and dedicated trainings on topics dealing with how to maintain an acceptable level of security and privacy when conducting your everyday activities.

✓ Privacy and general security quiz @ENISA

✓ Register for e-learning, find a course to suit you

✓ Want for more, then play a Capture the Flag competition

✓ Not sure? Ask for the in-house offer of e-skills training

Privacy

*Whenever you use a digital device and for example browse the internet and visit websites, you leave behind small traces of your activities. These activities can be stored both in your device and also by the websites visited. These traces are your Digital footprints. Everyone has the right to the protection of personal data concerning them-EU right **

YAWN

- ✓ Take time to check the privacy settings of the services
- ✓ Use encryption and encrypt files you share
- ✓ You receive a “surprise” e-mail from unknown source? Do not open and report to your IT service

*** Right to erasure:** 'common EU rules have been established to ensure that your personal data enjoys a high standard of protection everywhere in the EU. You have the right to complain and obtain redress if your data is misused anywhere within the EU.'

Mobile device

You consider yourself an experienced user of mobile technologies. You have your own smartphone with which you navigate the Internet and use several apps to get updates for local services, weather, etc., and to find additional services, e.g., locating the best restaurant in the local area.

- ✓ Lock your device when not in use
- ✓ Connect only to secure Wi-Fi networks
- ✓ Scrutinize permission requests when using or installing applications
